

FLANGE

The various flanges are characterized by a wide variety of bolt circles (41.3 mm, 73 mm, etc.) and are ideally suited for mounting on hydraulic units. Thus a solution for each requirements can be realized. The flanges are available with and without integrated filter sieve. The respectively screws and sealings are included. The standard design according to DIN is available in aluminum, optional in stainless steel.

VERSION	BOLT CIRCLE	SCREWING	SIZE A [mm]	SIZE B [mm]	SIZE C [mm]
F-LK41,3	41,3 mm	3x M5	25	41,3	51
F-LK50	50,0 mm	3x M5	25	50	61,5
F-LK73	73,0 mm DIN 24557	6x M5	25	73	85
F-LK73_Sieve	73,0 mm DIN 24557	6x M5	40	73	85
F-LK75	75,0 mm	4x M6	25	75	85
F-LK110	110,0 mm	4x M12	25	110	140
F-LK200	200,0 mm	8x M16	25	200	240
F-LK335	335,0 mm	12x M16	25	335	375
